Career Objective

I am a passionate **Full-Stack Developer** with hands-on experience in **MERN stack, Next.js, PostgreSQL, and Prisma**. I enjoy building secure, scalable, and visually engaging web applications. My goal is to continuously grow as a full-stack developer and contribute to meaningful projects in dynamic and collaborative team environments.

Skills

Front-End: HTML | CSS | Tailwind CSS | JavaScript | React.js | Next.js | TypeScript | Redux

Back-End: Node.js | Express.js | MongoDB | Mongoose | PostgreSQL | Prisma

Tools & Technologies: Firebase | Git | GitHub | VS Code | Vercel | Netlify | Postman | Figma

Experience

Frontend Developer Intern (Remote) | Advisor Media Group | Jul 2025 – Sept 2025 (3 mo) [view](#)

Responsibilities:

- Built and styled dynamic pages from Figma designs using **React.js** and **Tailwind CSS**.
- Collaborated effectively with UI/UX designers to maintain design consistency across the product.
- Worked with **Next.js** on frontend tasks while exploring backend logic and API integration.

Key Technologies: React.js | Next.js | JavaScript | Tailwind CSS | Express.js | Node.js

Projects

1. Digital Wallet Management System

🔗 [Live Link](#) | [Client Code](#) | [Server Code](#)

Features:

- Role-based dashboard for **Users, Agents, and Admins** with secure authentication system.
- Manage wallet operations — add funds, withdraw, transfer, and view detailed transaction history.
- Secure authentication with Google Login and JWT-protected routes for added security.

Technologies used: React.js, TypeScript, shadcn/ui, Node.js, Express.js, MongoDB, JWT.

2. LivingNest - Smart Apartment Rentals

🔗 [Live Link](#) | [Client Code](#) | [Server Code](#)

Features:

- Admin dashboard manages apartment listings, rental agreements, and member access.
- Member dashboard lets members securely pay and view payment history for transparency.
- Elegant, responsive UI built with **shadcn/ui, Framer Motion, and Redux Toolkit**.

Technologies used: Tailwind CSS, React.js, Node.js, Express.js, MongoDB, Firebase, JWT

3. CarePoint - Volunteer Management Platform

🔗 [Live Link](#) | [Client Code](#) | [Server Code](#)

Features:

- Secure user registration and login with JWT-based authentication for protected routes.
- Logged-in users can manage volunteer opportunities by creating, updating, and deleting them.

Technologies used: Tailwind CSS, React.js, Node.js, Express.js, MongoDB, Firebase, JWT

Education

Takmil (Master's Equivalent) in Islamic Studies & Arabic | Jamia Yunusia | (2022-2024)
