Portfolio | GitHub | LinkedIn

Career Objective

I am a passionate **Full-Stack Developer** with hands-on experience in **MERN stack, Next.js, PostgreSQL, and Prisma**. I enjoy building secure, scalable, and visually engaging web applications. My goal is to continuously grow as a full-stack developer and contribute to meaningful projects in dynamic and collaborative team environments.

Skills

Front-End: HTML | CSS | Tailwind CSS | JavaScript | React.js | Next.js | TypeScript | Redux
Back-End: Node.js | Express.js | Firebase | MongoDB | Mongoose | PostgreSQL | Prisma
Tools & Technologies: Git | GitHub | VS Code | Linux | VPS | AWS | Nginx | Postman | Figma

---

Experience

Full-Stack Developer | *S.M Technology* (On-site) | Feb 2026 – Aug 2026

Responsibilities:
Developed and maintained scalable full-stack web applications using modern frontend and backend technologies. Contributed to authentication systems, real-time features, cloud deployment, payment gateway integrations, and overall application performance optimization.
Key Technologies: Next.js | TypeScript | React.js | Node.js | Express.js | MongoDB | Prisma

Frontend Developer Intern (Remote) | *Advisor Media Group* | Jul 2025 – Sept 2025

Responsibilities:
Developed responsive frontend applications using React.js, Next.js, and Tailwind CSS. Worked closely with UI/UX designers while contributing to API integration and feature development.
• **Key Technologies:** React.js | Next.js | JavaScript | Tailwind CSS | Express.js | Node.js

---

Projects

1. Favorneed – Social Assistance & Donation Platform — Live Link | GitHub

Features:
• Full-stack platform with 4 user roles, real-time chat, payment gateway & admin dashboard.
• Blood, Fundraise, and Project posts with multi-step verification and moderation workflow.
• Real-time messaging, notifications, wallet management, and ShurjoPay payment integration.
• AWS EC2 deployment with Nginx, PM2, SSL, MongoDB Atlas, and scalable backend architecture
Technologies used: Next.js | TypeScript | Express.js | MongoDB | Socket.IO | AWS EC2 | Nginx

---

2. ProConnect – Service Marketplace Platform — Live Link | Client Code | Server Code

Features:
• Role-based marketplace system for **Admin, Seller, and Client** with secure JWT authentication.
• Sellers can create & manage services, track earnings, withdrawals, and customer reviews.
• Clients can browse services, place orders, make payments, and track transaction history.
• Admin dashboard for managing users, services, transactions, reports, and platform analytics.
Technologies used: Next.js | TypeScript | Tailwind CSS | Express.js | MongoDB | SSLCommerz

---
